Updating Security Certificate for USFWireless-Auth

You will notice your iPhone will not automatically connect to USFWireless-Auth as it has in the past. Please follow the instructions below to update the connection.

On your iPhone, navigate to **Settings** and then **Wi-Fi.** From that menu, tap USFWireless-Auth under My Networks.

ê 🤶 🚺
ê 🗢 🚺

A new window should appear to accept the updated certificate.

Verify the name , usfradius.stfrancis.edu , and Expiration date match this image. Select **Trust** from the upper right corner.

Your device should now show that you are connected.

If you experience trouble, please contact the USF Tech Support office at techsupport@stfrancis.edu or 815.768.8324
